SPIT AND POLISH, 134 QUEENS RD, FIVE DOCK. 2046.

NEXT MEETING: CLUBROOMS, THURSDAY, 25TH SEPTEMBER, 1980 AT 8.00 P.M.

THE PRESIDENT'S MESSAGE'1 & 2 Cylinder', National Rally.

The announcement by the V.C.C.A. (N.S.W.) of its intention to conduct a National Rally for 1 and 2 cylinder vehicles, to include steam and electric, has met with approval from all quarters and preparation by owners to meet the challenge is growing in impetus. The tentative date for staging this event is early March 1982.

Entrepreneurs behind the venture are Max Roberts as Director and Bill Maunsell.

Those aspiring to enter such a contest may be assured that a route, with gradients suitable to the challenge of driving low-powered vehicles, while providing maximum pleasure, has been selected and with these thoughts in view, plus minimum travel to and from for interstate entrants, the event will take the shape of a hub-rally, centred on Albury, N.S.W.

The event seeks to stimulate interest in the smaller and older veteran vehicles and through the bush-telegraph one hears of many proposals to resurrect from partial obscurity and under wraps those exciting old single and twin bangers that enjoyed their hey-day when the horse-drawn vehicle had precedence.

Some eighteen months available lead-time from the initial announcement of this event has provided the enthusiast with the encouragement and man-hours necessary for any restoration required and I believe we can look forward to the spectacle of a large contingent of early veteran vehicles not previously seen collectively in Australia.

The scheme was engendered by Max Roberts and discussed with me in 1977, during our route survey for the 1978 International Rally and last year Stan Rumble wrote to your committee expressing similar suggestions.

Now that plans for the rally are beginning to materialise, many questions are arising and will in the near future have their answers from the Rally Director, 25 Regatta Road, Five Dock.

- GEORGE A. ROBERTS

# OPINION

EDITORIALMONEY

The word 'money' is only a little five-letter word, but so much can be achieved if you have it when you want it.

Two honorary legal officers and Presidents have spent a lot of time in completing forms and compiling presentations to the government for a "cultural grant" but both applications have unfortunately fallen the same fate of being rejected. I think it will suffice to say that we will not be on the bread-line and should do what this club knows how to best - DO IT OURSELVES.

The Finance Committee has been working on proposals for some time now and has made contact with a lot of companies with the view to gaining their assistance but alas very little luck has come their way so far. This is not to say they do not know where they are going - it just means they need some additional help from fellow members.

The sort of help they require is in the form of a mutual friend or colleague who is associated with a large company which may be interested in being involved in the proposed new premises. Should you know of some person in this position, have a talk to one of the Finance Committee members first.

BRIEF BUT IMPORTANT

Unfortunately being absent from the monthly meeting due to a trip to Sydney, I missed most of the news but I understand that the October Weekend Rally is looking better all the time, with the arrangements for the sub-events - route - evening - tour etc. all organised. Still plenty of room for more entries and we would welcome some from the Veteran motor cycle chaps as well. Although I realise Parkes is a big rally for them - Newcastle is closer to home.

Peter Adams has the Paige on the road after it's long illness. Running well after an engine rebuild, Peter had all but forgotten how cold the thing is to travel in and when he asked No. 2 son to tell him when he was ready to change cars he said: NOW! The Paige was always a great goer but as the Adams family has expanded from 2 to 5 I think it may go the way of Doug Morris's Sunbeam Roadster.

# # # # # # # #

I heard about Lyn Benham's Wolseley Siddeley at the last picnic run. I know it was a beauty when only on the road under sufferance - for the passengers, I mean - but now the seats, trims and hood etc. are completed.

(Cont'd. on Page 9....)

Whacko! I expect George and I will be asked to park on the other side of the oval when on these runs in future. Oh well, I will be able to go on a motor bike soon and I suggest George park backwards and place a "Sold" sign on Stude. Never mind George, we will still be popular at lunch time with the wide running boards for the bigger backsides.

# # # # # # # # #

Heard a little about the Queensland National Tour and the work has already started according to my mate Ray Gould. Ray and Ed Sims have been taking a look at Nambour end of things so if all else fails, at least that end of things will be right. Did you know that Ed and Ray left Cessnock after the final dinner of the Anniversary Tour and drove straight home to Kenilworth, Queensland, non-stop. Puts me in mind of the famous trans-Victorian crossing in 1970 by the Quarmbys.

# # # # # # # # #

Well the weather is warming up again - it will soon be time to let the hood down and turn up the grease cups. Should also see the start of our twilight tours which were a great success last summer.

# # # # # # # # #

Sandy Holmes still on the sick call list. Hope we can all see you about soon Sandy.

# # # # # # # # #

Don't forget our next run - "Road to Rileys". By the time you read this it may be over but just in case, meet at Mt. Vincent Road, Brunker-ville and proceed to morning tea at Cessnock, then on to Maitland etc.

Regards to all,

BELT DRIVE BURKE

P.S. George says Garford is going. He doesn't say where.

RALLY REPORTFOR NAVIGATOR'S RALLY, AUGUST 31ST, 1980

Weather: Clear and extremely windy morning.  
Cloudy and windy afternoon.  
Winds exceeded 60 m.p.h.  
20° C.

Attendance: 12 veterans attended and 4 recycled veterans.

All members braved the windy conditions to compete in our Navigator's Run which seemed to cause some friction between navigators and drivers.

The venue area improved when the wind dropped, with some members and children enjoying a tug-o'war and a fun game of hit and run cricket which the early home-goers missed.

FROM THE PAST

VETERAN CAR CLUB OF AUSTRALIA

MARCH 1958 CIRCULAR

(By courtesy of George Green)

Well, the 1958 Blue Mountains Rally is all over bar the post mortems but, taken all round, it was a pretty good show and George Green deserved a king-size pat on the back for doing a grand job, as rally organiser and director. In case you're not aware of it, George carried out the job almost unaided - whilst at the same time madly restoring some of his veteran cars to have them ready in time for the rally.

Sincere thanks must also go to our interstate visitors who helped to make the rally such a success with their good sportsmanship and good vehicles.....to H.C. Sleigh Ltd. for their financial and administrative support. ....to our members and the Rolls Royce boys who did such a smooth job on controls.....to Sleigh's staff for the unselfish and cheerful manner in which they gave up their week-ends to service our cars and keep them mobile, and to our many friends both inside and outside the club who performed all those necessary tasks from judging to scrutineering, starting, P.A. announcing, film making etc.

With this circular you will find a full list of Rally results. Some of the Concours d'Elegance points will strike you as a little odd but I understand the judges did not follow our own club's method of judging. This has resulted in some --ah-- "interesting" comparisons.

(Cont'd. on Page 14....)

March 1958 Circular (Cont'd.)

NEXT OUTING: George Green has organised a Concours d'Elegance to be held on Sunday, 30th March - Barbecue to follow - at a place not yet decided. But intending entrants are requested to 'phone George at MW2282 or UM6232 for details. If weather inclement, outing will be postponed.

I know this is rather short notice, but I didn't know the full details myself until this morning.

NEXT MEETING: will be held at the A.S.C.C. clubrooms, 1 Regent Street, Redfern, at 8 p.m. on Thursday, 27th March.

FOR SALE: One 1913 4-cyl. Minerva Tourer. This car was No. 61 in the Blue Mountains Rally and further info. can be obtained from Eric Dunbar, Box Road, Kirrawee.

RALLY REMINISCENCES:

Larry Leresche going up Lapstone Hill tail first. Probably keeping the sun out of his eyes. The terrifying descent into the Katoomba Oval with scads of people and vehicles everywhere. Albie Frost screaming over the chalk line in the rolling test at about 90 m.p.h. How close you THINK you can move up to a stick without touching it. The chic green Brush Alan Rose-Bray wore to match his green pullover and cap. Adrian Garrett upholding the honour and glory of Rolls Royce and refusing a tow. The thought of poor Clisby mending that infernal chain seven times before reaching Penrith on the way back. The delightful picture of Ken Moss's family looking as though they had just stepped out of a page from "Vogue". Joy Klein quietly motoring up and down the mountain, probably doing a better job than Frank could ever do. The sight of a REAL veteran motorist enjoying himself immensely....I mean Mr. O'Meagher. Jim Simpson waiting for an ominour bulge in one tyre to go "Bang". Our jovial president wearing a Hupmobile two sizes too small for him. Royce Gregory getting all hep and digging that crazy beat by sporting an Ivy League shirt and serenading the girls with a wolf whistle siren fitted on the Overland. I could go on and on but unfortunately there isn't any more space left.

As I said before, it wasn't a bad rally at that.

Bill Daly,  
Hon. Secretary.

Copy of a letter dated 27th August, 1977 sent by a member residing at Mount Hutton, N.S.W.:

"Re Prevention of Car Accidents

Some years ago I put to Mr. Milton Morris, the then Minister for Transport, a suggestion for an "invention" which if adopted would certainly curtail car accidents.

Mr. Morris, in replying, said that whilst the idea had merit it was a bit radical and I agreed, but that was the era before cars were fitted with flicker lights, seat belts and other car extras.

I maintain that the idea is now practical, it being an exterior light speed indicator which operates in the following manner:

Every car is fitted with a roof top light, something after the style of those used by Police Cars and Tow Trucks.

This light is three-coloured and connected to the speedometer. The first setting of the light is made so that when a vehicle reaches a set speed, say 3 km.p.h. in excess of the lowest speed limit (60 km.p.h.) a "pink" light comes on. This remains on until the next setting of 83 km.p.h. when it goes out and a "blue" light takes its place. This would again change at 103 km.p.h. when a "red" light is shown instead of the "blue".

This would have two definite advantages, the first being that very few persons would drive in excess of a speed limit knowing that they were advertising the fact. Would you drive breaking the speed limit with a tell-tale light showing?

Secondly, it would do away with radar as all that would be required would be a camera to take a coloured film against a speed sign background. Such a fitting could be aesthetically designed and it would also be connected to a similar coloured panel on the dashboard. This is well within the expertise of any Electronics engineer and much easier to identify than a Speedometer.

Please don't think this is a "crackpot" idea because it would work both physically and psychologically if it were implemented."

A FINGER IN THE DYKE'S

Sticking tyres. Make the surfaces of rim smooth with emery cloth, apply graphite to the rim, and beads of the tyre and your tyre will never stick.

To get out of deep mud. Wrap your tyre chains bodily around the tyre and rim of wheel so as to make a big bunch, fastening it one with a strap or wire; turn on slow gear carefully; go.

SILVER HUB RALLY

LAUNCESTON, TASMANIA

28.2.81 TO 8.3.81

This rally has been organised to celebrate the 25th anniversary of the Veteran Car Club of Australia (Tasmania) and has been organised by the Northern Section of this club.

The rally has been organised as a tour of Northern Tasmania with veteran vehicles in mind. The areas visited are some of the most scenic in Australia as well as historic. An ideal opportunity to see part of this magnificent state at a reasonable expense.

The rally is open to veteran, vintage, post vintage, classic acceptance, motor cycles, and commercial vehicles.

Vehicles will be open for judging if desired which will be separate from the overall rally prize which will be determined through the motorkanah events and other events conducted during the course of the rally.

All vehicles will be required to attend the motorkanah as this will also be open to the public for inspection. Servicing facilities will be available during the course of the rally. As this is a hub rally, accommodation will only be required in the Launceston area, and will be arranged upon request.

Enquiries: Mr. H. Fruen, Rally Director, 61 Rannoch Ave., LAUNCESTON, TAS. 7250

FIRST NATIONAL RALLY FOR VETERAN 1 AND 2 CYLINDER CARS AND MOTOR CYCLES, INCLUDING ELECTRIC AND STEAM. TO BE HELD EARLY MARCH 1982.

## QUEENSLAND SILVER JUBILEE NATIONAL TOUR

14TH TO 23RD SEPTEMBER, 1982

Plans for the 1982 Silver Jubilee National Tour in Queensland are well under way. The Rally Committee, with Rally Director Frank Hack, has established a preliminary course starting and finishing in Brisbane and taking in the towns of Toowoomba, Kingaroy, Maryborough/Hervey Bay, Gympie and the Sunshine Coast which will be the overnight stops. The itinerary has been planned so that there will be a motoring day followed by a rest day with optional tours to places of interest.

(Cont'd. on Page 19,.....)

Queensland Silver Jubilee National Tour (Cont'd.)

Distances to be covered on each of the motoring days vary from 60 to 130 miles for vintage and 60 to 115 miles for veteran. While the distance to be covered on this one day could be regarded as excessive for veterans, this will be compensated by a relatively flat terrain and the good road and traffic conditions of this Kingaroy-Maryborough section.

His Excellency the Governor of Queensland, Sir James Ramsay, has accepted the position of Rally Patron and will be invited to start the rally.

At this time sponsors are being approached and it is hoped for favourable replies.

Over 150 requests for entry forms have been received and it is hoped to have the forms and tour bulletins in the post by February/March 1981.

The Rally Executive is made up of the following:

Rally Director	Frank Hack
Rally Secretary/Treasurer	Glynn Hackshall
Clerk of the Course	John Jones
Hospitality Director	Malcolm Sypher
Public Relations Director	Peter Arnold

1984 V.C.C.A. NATIONAL RALLY SOUTH AUSTRALIA

The National Rally is to be held in the Autumn of 1984 and is to be conducted by the Sporting Car Club of S.A. It will be based in the wine-growing area of the Barossa and Clare Valleys and offers ideal rally conditions, with very little road traffic and beautiful scenery.

The "Golden Jubilee" is being celebrated by the Sporting Car Club in 1984. The Club was established in 1934. It is the oldest historic Car Club in Australia, second only to the Veteran Car Club of Great Britain.

The Organising Committee are planning to make this a very special "Jubilee Rally" for historic motor vehicles in 1984.

If you think that you may have an interest in attending this event please register your intention by filling out the attached registration form. As more detailed information becomes available at a later date we will send newsletters and an entry form to you.
