South Australian Director: Duncan Scott
West Australian Director: Eric Richards
Queensland Director: Grahame Wilkinson
Northern Territory Co-ordinator: Margaret Puttman
Northern Territory Business Manager: Colonel Ian Bryant
Chief Judge: Ian Isbister
Business Manager: Barry Thew

Canberra or Bust?

Australian Bicentennial Castrol World Rally

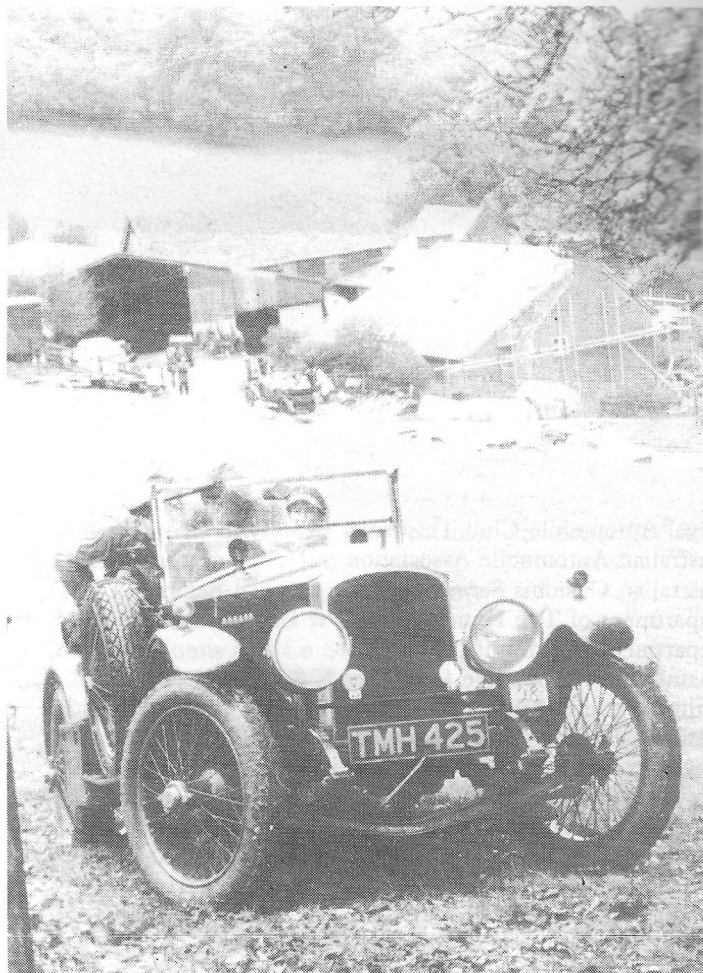

The city of Canberra will play host to over 1,200 of the world's veteran and vintage vehicles during March 1988. The Australian Bicentennial Castrol World Rally is being organised by the Veteran Car Club of Australia under auspices of the world organising body Federation Internationale Vehicules Anciens in Switzerland.

In an age when modern vehicles have styling and functionality as their guiding principles in design, few spare a thought about the trials and tribulations of the pioneers of the industry and the difficulties under which the cars were used on the rough roads of the day. That there are so many survivors is in fact quite surprising but Australia is one of the luckiest countries in the world with its store of early remaining vehicles. The dry climate of the interior, the expense of replacement vehicles and the vast array of makes from manufacturers in the UK, USA, France, Germany, Holland, Spain, Italy, Belgium and other countries has Australia's stock of survivors one of the most diverse anywhere in the world.

The 1988 event already has in excess of one thousand entries, many coming from overseas countries to participate in the rally. Amongst the overseas contingent are examples of Hispano-Suiza, Hotchkiss, Bugatti, Rolls-Royce, O.M., Vauxhall, Bentley, Model A Ford, Cadillac and the ubiquitous Model T Ford. In all, over 150 marques of vehicles are represented in the event to date, and entries continue to pour in.

Noted British collector Lord Montagu of Beaulieu will attend the event, his third visit to an Australian rally. On this occasion he is driving his 1913 Rolls-Royce Silver Ghost Alpine, one of the prettiest cars in the event. Approximately 25 cars have been entered from the United Kingdom, with other vehicles including motor cycles coming from Japan, Papua New Guinea, USA, Norway, Denmark, New Zealand and Hong Kong.

A West German entry is that of a 1905 De Dion Bouton 4 Cylinder

formerly displayed in the late George Green's collection at Green's Motorcade Museum at Leppington on the outskirts of Sydney. The car was originally the property of an early Victorian State Governor and is the oldest surviving 4 Cylinder De Dion in the world.

The rally is a Monte Carlo style affair with official starts in Brisbane, Sydney, Melbourne, Adelaide and Hobart and the cars will travel by circuitous routes to Canberra. Even before these official starts there will be informal runs from Perth and Darwin to Adelaide which will bring 40 to 50 cars to the Adelaide starting point. These pre-rally informal runs will provide access to the rally to many people in the more remote parts of the Australian interior who might otherwise not witness any other major Bicentennial event.

The cars will begin to arrive in Canberra on 15 March 1988, and should all have arrived by sundown on 16th March. They will remain in Canberra sightseeing in and around the capital, and touring in the countryside, hosted by many Canberra and regional car clubs. Saturday 19 March 1988 will see the largest ever display of veteran and vintage vehicles in the world. All the Rally cars will be joined by many local and Southern Tablelands cars in a mammoth display at the National Exhibition Centre. It is anticipated that 1600 to 1700 vehicles will be displayed with some specially invited post vintage vehicles of unique interest also on display.

Castrol Australia Pty. Limited in conjunction with The Australian Bicentennial Authority will be co-ordinating a nationwide involvement of school children. Rally Executive Director Ian Irwin said: "The philosophy of our event is that we should reach out to as many Australians as possible, and in particular to children." Project material on the history of the automobile industry will be prepared and distributed widely.

The Rally itself will culminate with a cavalcade of motoring history through the streets of Canberra, prior to a final function and farewell for the participants at the Bruce Indoor Stadium.
